

DONATE TO CELEBRATE!

Happy 1st Birthday Kareem!

A letter from Kareem's Mom and Dad
THANK-YOU STONY BROOK NICU

In honor of King Kareem Konroy Proctor's 1st birthday, we're asking you to participate in **donating blood**. Kareem was born November 26, 2017 at his home, premature at 22 weeks. He spent 6 months at Stony Brook NICU before he was able to come home with his parents.

Because of selfless blood donations provided to Stony Brook Hospital, Kareem was able to receive countless blood/platelet transfusions. Kareem is currently doing great and amazes us everyday. At this time we're asking you to please take the time to participate in **donating blood and help bring awareness to others of the importance of donating blood** as this could save a life.

Join the celebration at
the Stony Brook University Hospital Blood Bank
December 3rd through the 7th.

DONATE BLOOD

Every day is a blood drive!

Call 444-DONATE (444-3662) or visit us online at donateblood.stonybrookmedicine.edu to schedule an appointment.

You can also stop by Stony Brook Hospital at the Blood Bank/Donor Room Main Lobby-Level 5, Walk-ins welcome!
